

OUR VISION

"Our Vision" for the future of WV PBS Network as developed by participants at the WV PBS Network Retreat held July 24-26, 2007 at Chief Logan State Park

1. We will have broad impact on systems including school, Medicaid, behavioral health, Juvenile Justice.
2. We have a method of establishing the integrity and fidelity of PBS.
3. We will have an impact on the culture of agencies and their staff; may increase staff retention.
4. We will change the way people view behavior challenges.
5. We will have established qualifications that define PBS trainers, facilitators, and professionals.
6. We will increase the quality of direct care staff through PBS practice.
7. We will have a system where families can access quality care.
8. We have defined PBS for everyone-doctors, agency, and administrators.
9. We will provide better training to direct care staff in PBS.
10. We will have a system to evaluate PBS practices in state.
11. We will have and reward proactive approaches.
12. Need, not money will drive services.
13. We will have a system that focuses on supports and strengths, not deficits.
14. Everyone wants this and gets this.
15. We use PBS for all from administrator to managers to direct staff to consumers/participants/students/members.
16. We successfully get the word out and the public knows what this is.
17. We have defined competence.
