Internet Research Assignment: Find the Sound Bite!

On our class webpage, give a brief biography of your candidate, including birth date/place, offices and/or major jobs held, qualifications for the presidency. One small paragraph. Then look for your candidate’s stand on these major issues:

- The economy
- National Security
- The Environment
- Education

What, in your opinion, distinguishes your candidate from the rest of the pack?

What, in your opinion, is your candidate’s major weakness going into the primaries?

Give us the LINKS to where you found this information.

You can work together with your “candidate buddy,” or you can each pursue your topic solo. It’s up to you to decide how to divide up the research if you decide to work together, but I want to hear about it privately if your partner ends up being a complete slacker.
