Getting your TopHat Account up and running for Chem 234 – Fall 2013

You should receive an email from TopHat

Open the email
Choose the appropriate link, depending on whether you have a TopHat. I do not previously have an account, so I’m choosing the top link to get the following screen. Or alternatively, our 6 digit course code is 090398. Click on “Yes, that’s right”.

Fill in your name, create an account name and password and click on “Next” after agreeing to the terms and conditions.

Enter your student ID as requested. I forgot to capture a screen shot of this.
Add your cell phone number

As the last step, click on “enroll course”.

It appears that you can purchase your account on-line or you can go to the bookstore and purchase a code. They gave me a code, so that I could create this demonstration, so I’ll enter that and get into the course.
