Dr. Peterjohn’s portion of the 2005 final exam

1) Fifteen questions.

2) Some questions (~50%) will cover material presented since the last exam.

   This includes material covered by lecture 16:
   Energy flow through ecosystems
   Biological magnification
   Productivity (gross & net)
   Species diversity
   The niche
   Competitive exclusion
   Character displacement
   Succession

3) Study questions for article 11.

4) No questions from article 12.

5) The comprehensive questions (~50%) will be on material covered by past exam questions but the questions will not be the same.
