Bioinformatics/Genomics: West Virginia University invites applications for a tenure-track position at the Assistant Professor level in the Department of Biology beginning August 2010. We are seeking applications from individuals with a broad biology background and strong computational skills to develop an externally funded, independent research program. Successful applicants may participate in WVU’s Computational Biology initiative (http://www.as.wvu.edu/~sdifazio/compbio.pdf), and existing programs in genomics, molecular biology, environmental biology, physiology, and/or neurobiology at West Virginia University. We especially seek individuals who apply computational methods in the field of functional genomics. Excellent written and oral communication/teaching skills and a demonstrated potential to secure external funding are required. PhD in hand is expected by the time of the appointment, with preference given to candidates with postdoctoral experience, a record of scholarly publications, and evidence of effective teaching at the undergraduate and graduate levels. Qualified applicants should submit statements of research qualifications and teaching philosophy, curriculum vitae, representative publications, and arrange for three letters of reference to be sent separately to the address below. Review of applications will commence on December 6 and continue until the position is filled. Applications should be sent electronically to spdifazio@mail.wvu.edu or by mail to Stephen DiFazio, Search Committee Chair, Department of Biology, West Virginia University, PO Box 6057, Morgantown, WV 26506. For more information: http://www.as.wvu.edu/biology/faculty/positions.htm or phone: (304) 293-5201 ext. 31512.
